问题描述

连接网线后1-4口灯不亮，不能传输数据，通过CONSOLE口连接，输入密码后提示：

```
BootWare Validating... Application program does not exist. Please input BootWare password:***** No
te: The current operating device is flash Enter < Storage Device Operation > to select device. =====
=====<EXTEND-BOOTWARE MENU>===== |<
1> Boot System | |<2> Enter Serial SubMenu | |<3> Enter Ethernet SubMenu | |<4> File Control | |<5
> Modify BootWare Password | |<6> Skip Current System Configuration | |<7> BootWare Operation
Menu | |<8> Clear Super Password | |<9> Storage Device Operation | |<0> Reboot | =====
===== Enter your choice
(0-9):
```

选择1 Boot System 后提示：

```
Enter your choice(0-9): 1 Starting to get the main application file--flash:/main.bin! The main applicatio
n file does not exist--flash:/main.bin! Starting to get the backup application file--flash:/backup.app! Th
e backup application file does not exist--flash:/backup.app! Starting to get the secure application file--
flash:/secure.app! The secure application file does not exist--flash:/secure.app! Booting App fails!
```

解决方法

版本丢失，bootrom下重新传下版本就好了。
