

## (Mat is ther reason for alarm "dependent component is not installed "in W SM 7.3E0508P09 installation?

Network Management(H3C Intelligent Management Center **唐勋** 2020-08-07 Published

Engineer is installing WSM 7.3E0508P09 in PLAT 7.3E0605,but there is a prompt "dependent compo nent is not installed".

The reason is that WSM 7.3E0508P09 is a patch package. You need install the basis package 7.3E05 08 at first. You can not install a patch package directly.
