### Problem Description

How to view historical AP online statistics

### Solution

You can use the following command to view the historical AP online number, which can be specific to a specific point in time on a certain day:

```
[40irf-probe]display wlan ap statistics online-record datetime 2020/04/08 15:30
```

```
Time Manual AP Auto AP Total Total delta
```

```
2020-04-08/15:30:14 4 0 4 -1
```
