

# 知 how to unbinding a devices from the oasis platform?

Wireless 余煌 2020-10-29 Published

## Problem Description

null

## Solution

1. enter devices serial number to generate unbind code.

Device SN	Unbind Code	Unbind State	Expire At
219801ADWJC183000317	0Nq7381d7593e69	Not unbound	2020-05-09 11:58:08

2. configure commands on the device: cloud-management unbinding-code XXXX.
3. you can unbind and re-add the device to the current account.
