Only port 1 of the S6520X LED is on

Network Topology

null

Problem Description

The customer found that S6520X only has port 1 light on, and other ports light off.But some of the other ports are up.

Process Analysis

Observe that the mode light is yellow, indicating that the device is in IRF mode. At this time, if a few lights are on, it means the number of members of the IRF.

Description for the mode LED

LED mark	Status	Description
MODE	Steady green	The port status LEDs indicate port rates.
	Steady yellow	The port status LEDs indicates the IRF member ID of the switch. For example, if the LEDs for ports 1 to 5 are steady green and the other LEDs are off, the IRF member ID of the switch is 5.

Solution

Toggle MODE, and it will be normal after adjusting the device to rate mode
