问题描述

ET302如何设置ONU长发光?

解决方法

使用 192.168.0.240 (默认管理IP), 默认密码 "admin" 登录

[H3C]_hide

Now you enter a hidden command view for developer's testing, some commands may affect operation by wrong use, please carefully use it with our engineer's direction.

[H3C-hidecmd]test llluminate ?

always Set light mode always # 设置长发光

normal Set light mode normal

off Set light mode off
