Problem Description

When there is a firewall in the upstream of the device, the following ports need to be allowed to allow the device to register.

Solution

Addresses & Ports to Allow

H3C Cloudnet involves ports				
Destination IP	Protocol	Source Ports	Destination Ports	Description
101.36.160.142/32 52.163.242.100/32	TCP	Any	80/443	Log in to the Oasis front-end port (http/https)
52.187.3.51/32	TCP	Any	19443	The connection address of the Oasis device
13.76.182.179/32	TCP	Any	80/443	Oasis certified port
52.187.0.95/32	TCP	Any	80/443	Oasis apikong gateway address
8.8.8.8/32	UDP	Any	53	DNS server address and port number
8.8.8.8/32	ICMP	Any	Any	DNS server address
