

知 A possible cause of "NAS error" when dumb terminal goes offline for DR2000.

AD Solution 张宇超 2021-03-26 Published

Problem Description

In ADCAM3.0 , a possible cause of "NAS error" when dumb terminal goes offline for DR2000

Solution

The NETCONF parameter is not configured when managing the device, which leads to the N
AS device not reading the device role normally and the authentication information distributi
on failure.
