问题描述

A: iMC-EIA基于自带模板定制的短信认证，已发送的短信提示（“密码短信已经发往您的手机，请查收”）怎么修改？

The screenshot shows a mobile application interface for user authentication. At the top, there are close (X) and checkmark (✓) icons. Below them is a header area with a blacked-out name and the word "Guest". A toggle switch labeled "自动连接" (Auto-Login) is turned on. A large blacked-out area represents the user's profile picture. A message box with a red border contains the text "密码短信已经发往您的手机，请查收。" (Password SMS has been sent to your mobile phone, please check.). Below the message box is a "手机号" (Mobile Number) field with a dropdown menu showing "1" and a blacked-out number. A "55 秒后再获取" (Get again in 55 seconds) link is positioned below the number field. A "短信验证码" (SMS Verification Code) field is located below the link. At the bottom, there are two buttons: "上线" (Online) and "下线" (Offline).

#### 解决方法

Q: 修改方法如下:

- (1) 找到iMC安装目录\client\web\apps\portal\innerpage\LocalStrings\_zh\_CN.jsp文件,
- (2) 打开 LocalStrings\_zh\_CN.jsp文件, 查找“密码短信已经发往您的手机, 请查收。”, 修改后保存文件即可 (不用重启jsrver)。
