

## 知 X10000升级软件时预检查报“ERROR: Too many product packages”

存储软件 邓商杰 2021-07-30 发表

### 问题描述

X10000升级软件时执行“bash upgrade\_prepare.sh -m online”预检查报“ERROR: Too many product packages”

```
[root@X10536-1 product]# bash upgrade_prepare.sh -m online
hosts number : 3
public network : 172.17.0.2 172.17.0.3 172.17.0.4
Is the host info of the cluster correct? (yes|no): yes
[2021-07-23 21:55:24] Start to install the script package in master node
[2021-07-23 21:55:25] Finish installing the script package in master node
[2021-07-23 21:55:25] Start to upload the script package
[2021-07-23 21:55:26] Finish uploading the script package to all node
[2021-07-23 21:55:26] Start to install the script package,please wait...
[2021-07-23 21:55:29] Finish installing the script package in all node
[2021-07-23 21:55:29] Start to set layer
ERROR: Too many product packages
```

#### 解决方法

在/var/log/import\_pkg中包含多个升级包导致报错，只保留一个升级包后不再报错
