

# 某局点F1000-AI-55web界面禁用启用安全策略无法看到操作日志

info-center 郭文浩 2021-11-19 发表

## 问题描述

现场为D060分支防火墙，已在系统--日志配置--基本设置--存储空间配置中勾选相关日志模块，同时也配置了日志主机127.0.0.1的3301端口，但是web界面禁用启用安全策略无法看到操作日志

系统日志列表

#### 解决方法

经确认配置日志产生的模块是CFGLOG，现场版本8860P11需要将日志发送到loghost 127.0.0.1 3301后才能在web界面显示，但是CFGLOG模块默认不发送给loghost，因此需要单独加一条命令info-center source CFGLOG loghost level x，将日志发送给loghost才能web界面正常显示。后续版本会优化此逻辑。
