

问题描述

UIS E0750P02

1、配置存储步骤时报错监控节点软件安装失败

2、将系统重刷或者将主节点cas_mon服务重启后，可以进行到部署监控节点的步骤，但报错部分成功

3、leader日志中报错操作失败

```
2022-01-13 12:58:49.349438-[ERROR]-[LEADER]-[pid:65953][tid:44107][lun_trash.py][get_config_dead_time][line:1681]:Trash destroy time has been breakdown: error code: Operate failed. Please check ceph cluster health status,
reason: 操作失败, 请查看ceph集群健康状态
2022-01-13 12:58:49.349784-[WARN]-[LEADER]-[pid:65953][tid:44107][lun_trash.py][get_trash_info_from_db][line:178]:Get trash time from ceph db failed, use max trash time: 2592000, error is error code: Operate failed. Please check ceph cluster health status,
reason: 操作失败, 请查看ceph集群健康状态

```

过程分析

与现场沟通得知现场使用C106V作为监控节点安装系统时选择了为CVM，怀疑与此有关

解决方法

经H3C工程师确认，安装监控节点时需选择安装为CVK，现场重装完成后清除浏览器缓存部署成功
