

## 知 CAS CVK后台不断提示“QEMU guest agent is not configured”

杨海严 2018-02-13 发表

集群13台CVK中，有1台CVK后台不断报错“QEMU guest agent is not configured”，如下图：

```
2-01 13:12:41.133+0000: 59490: error : qemuDomainAgentAvailable:2298 : arg
unsupported: QEMU guest agent is not configured
2-01 13:14:52.590+0000: 43093: error : qemuDomainAgentAvailable:2298 : arg
unsupported: QEMU guest agent is not configured
QGSCVK3: # ls
samba.tar.bz2  #waid.list
QGSCVK3: # cat /var/log/libvirt/libvirtd.log |grep -i 'qemuDomainAgentAvailable:' |more
1-28 06:30:42.819+0000: 43933: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
1-28 06:31:27.899+0000: 73400: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
1-28 06:32:54.994+0000: 73397: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
1-28 06:33:41.244+0000: 14095: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
1-28 06:35:29.879+0000: 40261: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
1-28 06:36:29.479+0000: 59490: error : qemuDomainAgentAvailable:2298 : argument unsupported: QEMU guest age
not configured
```

QEMU guest agent在CAS上可以简单理解为castools及相关的服务，需要排查castools及相关的服务是否正常。

排查该CVK下的虚拟机的castools都安装且运行正常，在该CVK上使用service libvirt-bin restart重启libvirt-bin服务后恢复正常。

需要了解QEMU guest agent的作用及CAS上相关的程序和服务。
