

M9000 防火墙如何消除授权告警

罗啸 2018-04-18 发表

M9000防火墙在为注册ips/acg/防病毒license的情况下，日志里一直打印授权告警。

```
%Apr 17 13:55:14:084 2018 M9010 ACG/4/APR_LICENSE_UNAVAILABLE:
```

```
The feature ACG has no available license.
```

```
%Apr 17 13:55:15:522 2018 M9010 IPS/4/IPS_LICENSE_UNAVAILABLE:
```

```
The feature IPS has no available license.
```

```
%Apr 17 13:55:15:522 2018 M9010 ANTI-VIR/4/AV_LICENSE_UNAVAILABLE:
```

```
The feature Anti-virus has no available license.
```

在命令行下通过如下命令可以关闭相应告警：

```
info-center source ACG logbuffer deny
```

```
info-center source IPS logbuffer deny
```

```
info-center source ANTI-VIR logbuffer deny
```
