

问题描述

WAC360能否支持晚上关闭SSID?

小贝系列产品能否针对ap发射信号的其中一个进行定时关闭?

小贝系列产品如何实现定时关闭无线?

解决方法

1、定时关闭射频

#

job radio_disable

view system

time 1 repeating at 15:00 command wlan radio disable all

time 2 repeating at 15:00 command y

job radio_enable

view system

time 1 repeating at 15:01 command wlan radio enable all

time 2 repeating at 15:01 command y

2、定时关闭无线信号服务

job service1_disable

view wlan-st-1 //进入服务模板1的配置视图

time 1 repeating at 15:02 command service-template disable

job service1_enable

view wlan-st-1

time 1 repeating at 15:03 command service-template enable
