

问题描述

流分类

```
traffic classifier ip
if-match any
```

流动作

```
traffic behavior ef1
remark dscp cs5
remark mpls-exp 5
```

流策略

```
qos policy ef
classifier ip behavior ef1
```

```
#
```

```
interface GigabitEthernet3/1/2
ip address 172.31.10.1 255.255.255.0
qos apply policy ip inbound
```

```
[H3C-GigabitEthernet3/1/2]Oct 28 02:56:51:172 2019 H3C QOS/4/QOS_POLICY_APPLYIF_CBFA
IL: -MDC=1-Slot=3; Failed to apply classifier-behavior ip in policy ip to the inbound direction of i
nterface GigabitEthernet3/1/2. The operation is not supported.
```

```
[H3C]display qos policy int g 3/1/2
```

```
Interface: GigabitEthernet3/1/2
```

```
Direction: Inbound
```

```
Policy: test
```

```
Classifier: test (Failed)
```

```
Operator: AND
```

```
Rule(s) :
```

```
If-match any
```

```
Behavior: test
```

```
Accounting enable:
```

```
0 (Packets)
```

解决方法

1、修改流分类配置后解决，配置如下：

```
#
```

```
acl advanced 3000
```

```
rule 0 permit ip
```

```
#
```

```
traffic classifier ip operator and
```

```
if-match any
```

```
if-match acl 3000
```

```
#
```
