What types of the LPUs Used by the S9500 Series

孟维佳 2007-01-12 发表

LPUs used by S9500 Series include the list below:

LSB1FT48B0: 48-port 100M electrical interface board;

LSB1FP20B0: 20-port 100M optical interface board;

LSB1GP12B0: 12-port GE optical interface board;

LSB1XK1B0: 1-port 10GE interface board;

LSB2FT48CA0: 48-port 100M electrical interface board;

LSB1FP20CA0: 20-port 100M optical interface board;

LSB1F32GB0: 32-port 100M electrical interface and 4-port GE optical interface board;

LSB1F32GCA0: 32-port 100M electrical interface and 4-port GE optical interface board;

LSB1P4G8CA0: 8-port GE optical interface and 4-port 155M POS board;

LSB1GP12CA0: 12-port GE optical interface board;

LSB1GT24B0: 24-port GE electrical interface board;

LSB1GP24B0: 24-port GE optical interface board;

LSB1XP2B0: 2-port 10GE interface board;

LSB1XP2CA0: 2-port 10GE interface board;

LSB1XK1CA0: 1-port 10GE interface board;

LSB1XP4B0: 4-port 10GE interface board;

LSB1XP4CA0: 4-port 10GE interface board;

LSB1GV48DB0: 48-port GE optical interface board;

LSB1GT24CA0: 24-port GE electrical interface board;

LSB1GP24CA0: 24-port GE optical interface board;

LSB1SP4CA0: 4-port 2.5G POS board;

LSB1UP1CA0: 1-port 10G POS board;

LSB1NATB0: NAT service board;

LSB1VPNB0: VPLS service board;
