

知 Are there Any Restrictions on the Installation Slots of SRPUs and LPUs of S9500

孟维佳 2007-01-12 发表

The SRPU can be fixed on to either of the two SRPU slots and the LPU can be fixed on to either of the LPU slots. But the SRPU cannot be fixed on to the LPU slots and the LPU cannot be fixed on to the SRPU slots. (except for S9502)

The SRPU of S9502 can be fixed on to slot 0 or slot 1, and the LPU can also be fixed to slot 1. Namely, slot 1 can be used to fix SRPU or LPU.

Note that as XP2/XP4 have higher temperature, you need avoid fixing them to slot 0 or slot 13.
