

知 VLAN Specifications Supported by the S9500 Series

刘志伟 2007-01-22 发表

The system supports 4K VLAN, with 1 through 4094 available while 0 and 4095 reserved by the system.

S9500 support SuperVlan. The system supports 32 SuperVlans, each SuperVlan support 64 SubVlans and the system supports 1024 SubVlans.

The SuperVlan supports VRRP and DHCP, but not multicast and POS.
