

## 知 Does the S9500 Series Support DC and AC Power Supplies at the Same Time?

孟维佳 2007-01-23 发表

The power supply of S9500 adopts 1+1 backup design and either of the two power modules can ensure the normal operation of S9500. S9500 Series provides DC and AC two power modules, which cannot be used together. In other words, S9500 supports DC+DC, AC+AC, DC only and AC only.
