

Does S9500 Support netstream

孟维佳 2007-02-27 发表

S9500 subsequent versions support netstream. Software version: 1325 or higher. Hardware requirement: As netstream is implemented with specific LPU, it requires LSB1NAMB to process netstream service.

At present, this function is only available in the pilot deployment. (Till 31.07.06)
