

如何在linux shell上运行WAAM命令

要在linux shell环境下运行WAAM命令，只需在原命令前加xxh。

例如在linux shell环境下运行“show run”命令：

```
ACC# xxh show run
Creating configuration ...
.....
/var/log/mng/tmp_file_hb0eQV
.....
# WAAM configuration file
# Generated by WAAM v6.1(1) build 2.49 on Nov 23, 2007 at 11:21
!
!
interface local
ip address 10.0.99.99 255.255.255.0
ip default-gateway 0.0.0.0
deployment onlan
!
End
ACC#
```
