Typical HDLC Configutaion

Keywords：MSR ; HDLC

1. Requirements：

Route rA and Router B inter-work through HDLC。

Device：MSR series router 2

2. Network diagram：

3.Configuration steps：

Device and version：MSR20-21 series、version 5.20 and Beta 1201P01

RTA key configuration scripts	
# //set link protocol to HDLC interface Serial0/0 **link-protocol hdlc** ip address 20.1.1.1 255.255.255.0 #	
RTB key configuration scripts	
# //set link protocol to HDLC interface Serial0/0 **link-protocol hdlc** ip address 20.1.1.2 255.255.255.0 #	

4. Tips：

Make sure that the keepalive values on the two routers are the same, and it defaults to 10s.
