MSR configuration difference between "^1、^1.." and "^1..$"

Q：What's the difference between "^1、^1.." and "^1..$"of MSR configuration?
A：

^1 starts with 1, don't exceed 31 digits, such as 1、123、123456 and so on

^1.. starts with 1, the least length is 3 and don't exceed 31 digits, such as
123，1234 and so on

^1..$　starts with 1 and the length must be 3, such as 123、111、132 and so on
